

the NATURE LODGE

REDUCE, REUSE, RECYCLE

What's New

This year we have a very experienced staff that will be implementing a new recycling program, looking for new ways for camp to GO GREEN! and continue to find new things in our fossil pit.

* Ecology and Conservation *

SPECIAL PROGRAMS WE OFFER

Recycling Program- Our Environmental Science classes assist our Ecology and Conservation staff in running our new and improved camp recycling program!

Going Green- Our camp is working diligently to become a GREEN camp. Our scouts that participate in our session will be developing ideas that we will use in helping our camp better use its resources and help the environment.

Fossil Pit- At our Ecology and Conservation facility we have a fossil pit that contains soil and animal remains from the bottom of the North Carolina coast. At the fossil pit scouts will be able to find everything from sharks teeth to whale vertebrate.

Merit Badges Offered
